**E-COMMERCE WEBSITE FOR
TBWSS-INTERACTIVE**

Case Study: On Sale Now Web Application

Client: TBWSS-Interactive, Australia

Program: E-Commerce Website

Platform: PHP, HTML, MySQL

INTRODUCTION

The project deals with the development of secure and effective e-commerce website for **TBWSS-INTERACTIVE**.

This website deals with following objectives:

- To offer investors and home owners the opportunity to sell or rent their properties online.
- To generate a quality listing of properties, for people looking to either buy or rent.
- To sell personalized "FOR SALE" signs online.
- To develop a secure and trusted ecommerce solution that has enough online storage space to handle constant data uploading.

TECHNOLOGY

The website will be developed using following technologies:

- HTML
- DHTML
- CSS
- PHP
- mySQL
- Java Script
- VB Script

MODULES

This website project can divided under following modules and sub-modules.

- **Main**
 - Main Page
 - Contact Us
 - FAQ
 - Privacy Policy
 - Links

- **Notify Me**
- **Buy Property**
- **Rent Property**
- **Add Property Listing**
- **Add Rental Listing**
